

Viro M.A.C is the new electronic alarm that warns you with a warning SMS on **your mobile phone** to notify you any attempt at tampering or unauthorized access.

You can hide Viro M.A.C anywhere: at home, office, shop!

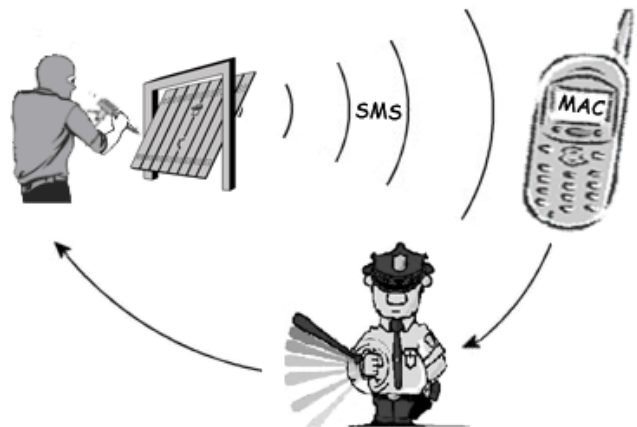

YOU CAN PROTECT:

Your home and Your garage

Viro M.A.C. is more than an alarm, because it does not activate a siren, but silently warns you with a message, in order to catch ill-intentioned people in the act!

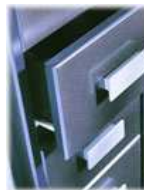

All Your valuables

Your confidential documents and Your office

Viro M.A.C. safeguards your privacy, because it tells you in real time when someone is where they shouldn't be.

At home or at work, Viro M.A.C. can also be fixed on doors, windows, drawers, filing cabinets, etc.

Maximum security

prevents the possibility of theft.

Absolute freedom

the module is portable and has no subscription fee.

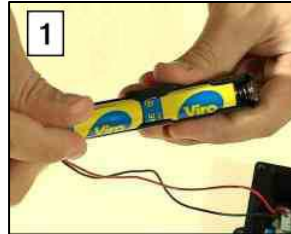

Complete control

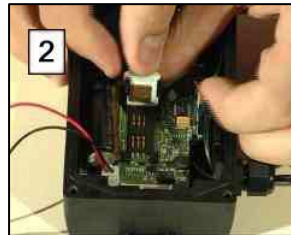

only the user knows it is there and receives all the information.

USE VIRO IS EASY, JUST 4 STEPS :

1) Insert 4 alkaline 1.5 Volt batteries

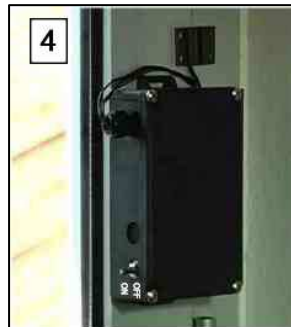

2) Insert a SIM card in the module, prepaid or contract

3) Send a text from your mobile phone to the card number

4) Activate Viro M.A.C when leaving the house

TECHNICAL SPECIFICATIONS

- Viro M.A.C works with 4 alkaline 1.5 Volt batteries.
- Works with any SIM card (1.8 V or 3V).
- Viro M.A.C is equipped with a vibration sensor (with adjustable sensitivity) that detects break-ins and a GSM that sends alarm messages on your phone.
- Viro M.A.C is equipped with a magnetic sensor of openness that allows to send a warning message when someone (e.g. a family member or colleagues) logs on the place where M.A.C is located.
- Viro M.A.C reports with a message if the batteries are running low.
- Easy application with the strong double-sided adhesive tape supplied, without screws or electrical connections.
- Original design Viro.

OPTIONAL: M.A.C version with remote control for remote activation (Item. 8199).
